

ITEM 610.05 Wireless Service Provider Enhanced Provincial 9-1-1 Network Access Service

N

1. Service Description

Wireless Service Provider Enhanced Provincial 9-1-1 Network Access Service provides a Wireless Service Provider (WSP) with trunk side access to SaskTel's Provincial 9-1-1 Network in order to transport:

- (a) information associated with the WSP's cell site/sector that receives a 9-1-1 dialled call;
- (b) the call back number of the WSP End-Customer who places a call to 9-1-1; and
- (c) the 9-1-1 dialled call

to the appropriate 9-1-1 Public Safety Answering Point (PSAP).

Wireless Service Provider Enhanced Provincial 9-1-1 Network Access Service is available in SaskTel's serving territories in the Province of Saskatchewan.

2. Definitions

For the purposes of this Tariff item:

"Emergency Service Routing Digit" (ESRD) means a non-diallable, 9-1-1 routable telephone number that is uniquely associated with a cell tower or antenna on a cell tower.

"Provincial Enhanced 9-1-1 Service" means SaskTel's province-wide 9-1-1 emergency telephone service as specified in Tariff Item 140.05.

"Selective Router" means a 9-1-1 tandem switch that routes calls to the 3 digit emergency telephone number 9-1-1 to the appropriate PSAP.

"SaskTel's Provincial 9-1-1 network" refers to a network, forming part of the switched telecommunications system of SaskTel that includes equipment, facilities, and systems that provide services with respect to calls to the 3-digit emergency telephone number 9-1-1.

2. Definitions – Continued

“*Trunk*” or “*Trunking*” means a DS-0 time slot or channel between the trunk side of the WSP’s switch and SaskTel’s Selective Router.

“*Wireless Service Provider*” (*WSP*) includes Cellular Service operators, Service Operators providing Specialized Mobile Radio/Enhanced Specialized Mobile Radio and Service Operators providing Personal Communications Services. A WSP must be designated by Industry Canada to provide public mobile radio service in areas served by the Company. For greater certainty, WSP further includes wireless service providers offering service in accordance with the CRTC’s directives applicable to Competitive Local Exchange Carrier (CLEC).

“*WSP End-Customer*” means the end-user of telecommunications services provided by the WSP and roaming wireless caller using the WSP Network.

“*WSP’s Network*” means the public mobile radio telephone system of the WSP which includes the WSP switches that receive 9-1-1 dialled calls from WSP End-Customers.

3. Conditions of Service – General

1. Wireless Service Provider Enhanced Provincial 9-1-1 Network Access Service is provided under the terms and conditions defined in this Tariff Item.
2. The WSP shall be SaskTel’s customer for the interconnection and services provided under this Tariff Item.
3. The Emergency Service Routing Digit numbering resource administrator will administer and assign the non-diallable NPA-511-XXXX numbers, in blocks of 100, for cell site/sector identification and 9-1-1 routing purposes.

4. Conditions of Service – Wireless Service Provider and Company Responsibilities

1. The WSP shall provide the interconnecting CCS7 Trunking required between the WSP's switch(es) that forms part of the WSP's Network and SaskTel's Selective Router(s) that forms part of SaskTel's Provincial 9-1-1 Network. SaskTel's Trunking facilities are available at the rates and charges and under the terms and conditions specified in Item 610.06.
2. The WSP shall provide CCS7 signalling on trunk side to enable the exchange of Integrated Services Digital Network User Part (ISUP) signaling information necessary to support the signaling requirements for Wireless Service Provider Enhanced Provincial 9-1-1 Network Access Service.
3. For calls to 9-1-1 by a WSP End-Customer, the WSP's Network shall transport:
 - a) The Emergency Service Routing Digit associated with the WSP cell site/sector that received the 9-1-1 dialled call;
 - b) The 10 digit call back number of the WSP End-Customer who placed the call to 9-1-1; and
 - c) The 9-1-1 dialled call;to SaskTel's Selective Router.
4. For 9-1-1 call information received by SaskTel's Selective Router from the WSP's Network, SaskTel's Provincial 9-1-1 Network, utilizing the Emergency Service Routing Digit received from the WSP's Network, will route 9-1-1 dialled calls from the WSP End-Customers to the appropriate PSAP (as defined in the Wireless Service Provider Enhanced Provincial 9-1-1 Network Access Service Agreement) in conjunction with Provincial Enhanced 9-1-1 Service.

4. Conditions of Service – Wireless Service Provider and Company Responsibilities - Continued

- 7. Upon expiration of a SaskTel Wireless Service Provider Enhanced 9-1-1 Network Access Service Agreement, if the Customer has chosen not to enter into a new SaskTel Wireless Service Provider Enhanced 9-1-1 Network Access Service Agreement or has not agreed to renew its existing SaskTel Wireless Service Provider Enhanced 9-1-1 Network Access Service Agreement and the Customer continues to receive the service, it will be at the current rate for SaskTel’s Wireless Service Provider Enhanced Provincial 9-1-1 Network Access Service.

5. Rates

The following rates and charges are in addition to any other applicable rates and charges as stated in SaskTel’s Tariffs.

- 1. The WSP shall pay to SaskTel the following rate for each of its working wireless telephone numbers equipped for outward calling within Saskatchewan.

Monthly Rate per Wireless Telephone Number	0.0088
--	--------

- 2. For the purpose of calculating the charges payable, the WSP shall submit to SaskTel each month, on a day of the month specified by the WSP, an updated count of its working wireless telephone numbers in Saskatchewan. If the day for the submission of the number count is not a business day, the number count shall be submitted the next business day.
