infiNET

infiNET fibre optic network gives SaskTel customers the increased bandwidth that will enable a whole range of feature-rich television and High Speed Internet services.

Blazing speeds

The *infiNET* fibre optic network brings fibre right to your door, making your Internet connection consistently fast so you always get the speed you need. You'll get amazingly fast speeds – up to 260 Mbps download and 60 Mbps upload – the fastest available in Saskatchewan.

- Upload and download data, music and more in a fraction of the time
- Smoothly stream videos, play games without latency and video chat without freezing, pixelization or dropped connections
- Unlimited downloading with no overage fees

infiNET provides inherently faster speeds for all SaskTel High Speed packages, plus it offers the much faster Mach I and Mach II options.

Ultimate connections

With *infiNET* you can get **maxTV** HD programming and multi-room PVR on up to seven TVs in your home.

Infinite potential

With *infiNET* you are ready for the services of today and those of the future.
