
SaskTel Billed Number Screening

N

Description

Billed Number Screening (BNS) Database Service permits Competitive Pay Telephone Service Providers (CPTSPs), Competitive Local Exchange Carriers (CLECs), and Wireless Service Providers (WSPs), to list high level numbers (NPA-NXX/NPA-NSSS-S) and line level numbers (NPA-NXXX-XXXX) for the purpose of placing call billing restrictions on their telephone lines. Any telephone number entered into the database will be restricted from accepting collect or bill-to-third (C/BTT) party calls.

Definitions

For the purposes of this non-tariff:

“*BNS Database*” refers to the database used within the billed number screening system that houses the high level and line level number information needed to validate billing C/BTT calls to a telephone number.

“*High Level Number*” refers to a six-digit number (i.e NPA-NXX) or a seven-digit number (i.e. NPA-NXX-X).

“*Line Level Number*” refers to a ten-digit number (i.e. NPA-NXX-XXXX) that identifies each main telephone on the public switched network.

“*Subscriber*” refers to a customer who subscribes to the BNS Database Service.

“*Transaction*” refers to any new high level and/or line level number to be listed in the database, and any modification or removal of a number already listed in the database.
