

ITEM  
1000.02**Northern Saskatchewan Facility**

N

**1. Service Description**

This arrangement provides for the installation of a transmission facility connecting the Customer's two locations in adjacent northern Saskatchewan exchanges.

Once constructed, SaskTel will retain ownership of the transmission facility.

The service period for the transmission facility is sixty (60) months.

This arrangement provides for the installation of customer-owned communications cabling on the Customer's premises associated with the transmission facility.

This arrangement will provide the customer with standard exchange Digital Network Access (DNA) DS-1 access service under the terms and conditions and at the local rates specified within the Tariff Item on Digital Network Access (DNA).

**2. Conditions of Service**

1. This Special Facility may be terminated by the Customer upon thirty (30) days advance notice in writing delivered to SaskTel, provided that if this Special Facility is terminated at any time prior to the expiration of the fixed term, the Customer shall forthwith pay to SaskTel a termination charge in a single payment equal to the sum of the remaining monthly facility and communications cabling construction charges together with any outstanding charges due, at the date of termination.
2. The Customer will be provided with standard exchange Digital Network Access (DNA) DS-1 access service under the terms and conditions and at the local rates specified within the Tariff Item on Digital Network Access (DNA).
3. All required air transportation from LaRonge to the Customer premises for SaskTel and SaskTel contractor personnel shall be provided at Customer's expense. Transportation of SaskTel and SaskTel contractor personnel on site at Customer premises is also Customer's responsibility and at Customer's cost.
