Saskatchewan Telecommunications Holding Corporation

Second Quarter Report 2013 For the Period Ending June 30, 2013 Saskatchewan Telecommunications Holding Corporation (SaskTel) is a Saskatchewan Crown corporation. SaskTel is the leading full service communications provider in Saskatchewan, offering a wide range of communications products and services including competitive voice, data, Internet, entertainment, security monitoring, messaging, cellular, wireless data and directory services. In addition, SaskTel International offers software solutions and project consulting in countries around the world.

SaskTel and our wholly-owned subsidiaries have a workforce of approximately 4,000 full time equivalent employees.

Our vision is "Be the best at connecting people to their world." and our mission is "To provide the best customer experience through our networks, exceptional service, advanced solutions and applications."

1

Financial Highlights

Consolidated Net Income

	Three	Three months ended			Six months ended		
		June 30,					
Millions of dollars	2013	2012	% Change	2013	2012	% Change	
Revenue	\$292.6	\$290.2	0.8	\$582.5	\$575.2	1.3	
Other income	5.4	3.6	50.0	5.7	4.8	18.8	
	298.0	293.8	1.4	588.2	580.0	1.4	
Expenses	272.8	255.6	6.7	540.3	510.7	5.8	
Results from operating activities	25.2	38.2	(34.0)	47.9	69.3	(30.9)	
Net finance expense	11.2	6.8	64.7	19.7	15.7	25.5	
Net income	\$14.0	\$31.4	(55.4)	\$28.2	\$53.6	(47.4)	

Net income for the six months ended June 30, 2013 is \$28.2 million, down \$25.4 million (47.4%) from the same period in 2012. Revenues increased to \$582.5 million, up \$7.3 million (1.3%) from the same period in 2012 primarily due to increased wireless revenue from customer growth and increased data usage, and $maxTV^{TM}$ revenues resulting from increased customer accesses and increased revenue per customer.

Expenses for the six months ended June 30, 2013 increased to \$540.3 million, up \$29.6 million from the same period in 2012. This increase is primarily driven by increased contract, software licenses and maintenance, consulting and direct expenses. Depreciation and amortization has increased \$1.1 million due to increased plant in service. Net finance expense was \$19.7 million, up \$4.0 million over the same period in 2012. This is driven by increased borrowing and a decrease in the fair value of the sinking funds compared to the same period in 2012.

Management Discussion and Analysis

August 15, 2013

Forward-Looking Information

The following discussion focuses on the consolidated financial position and results of the operations of SaskTel for the second guarter 2013. This discussion and analysis should be read in conjunction with SaskTel's audited financial statements for the year ended December 31, 2012. Some sections of this discussion include forwardlooking statements about SaskTel's corporate direction and financial objectives. A statement is forward-looking when it uses information known today to make an assertion about the future. Since these forward-looking statements reflect expectations and intentions at the time of writing, actual results could differ materially from those anticipated if known or unknown risks and uncertainties impact the business, or if estimates or assumptions turn out to be inaccurate. As a result,

SaskTel cannot guarantee that any of the predictions forecasted by forward-looking statements will occur. As well, forward-looking statements do not take into consideration the effect of transactions or non-recurring items announced or occurring subsequently. Therefore, SaskTel disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. For a full discussion of risk factors, please consult Management's Discussion & Analysis in SaskTel's 2012 annual report. These interim statements have been prepared in accordance with the International Financial Reporting Standard IAS 34, "Interim Financial Reporting". These interim statements have been approved by the SaskTel Board of Directors on August 15, 2013.

Results of Operations

Revenue

Millions of dollars	2013	2012	Change	%
Three months ended June 30,	\$292.6	\$290.2	\$2.4	0.8
Year-to-date	\$582.5	\$575.2	\$7.3	1.3

Revenues for the second quarter were \$292.6 million, up \$2.4 million from the same period in 2012. Year-to-date revenues were \$582.5 million which represents a \$7.3 million increase from 2012. This increase is primarily due to: increased wireless revenue from customer growth and increased data usage; increased maxTV revenues resulting from increased customer accesses and increased revenue per customer; increased Internet revenues due to high speed Internet customer growth, partially offset by decreases in SaskTel International revenues, and access and enhanced services revenue, due to residential and Centrex access decreases related to competition and wireless replacement.

Other income

Millions of dollars	2013	2012	Change	%
Three months ended June 30,	\$5.4	\$3.6	\$1.8	50.0
Year-to-date	\$5.7	\$4.8	\$0.9	18.8

Other income for the second quarter of 2013 increased to \$5.4 million up \$1.8 million from the same period in 2012. Year-to-date other income was \$5.7 million, \$0.9 million higher than the same period in 2012 primarily due to increased amortization of government funding partially offset by one-time refunds and adjustments recognized in the same period in 2012.

Expenses

Millions of dollars	2013	2012	Change	%	
Three months ended June 30,	\$272.8	\$255.6	\$17.2	6.7	
Year-to-date	\$540.3	\$510.7	\$29.6	5.8	

Expenses for the second quarter of 2013 increased to \$272.8 million, up \$17.2 million from the same period in 2012. Year-to-date expenses of \$540.3 million were \$29.6 million higher than the same period in 2012 primarily due to a \$20.0 million increase in goods and services purchased. This increase is primarily to support the growth areas of wireless and *maxTV*, as well as increased contract, software licenses and maintenance, consulting costs, and salaries and benefits due to salary restructuring and economic increases.

Net finance expense

Millions of dollars	2013	2012	Change	%
Three months ended June 30,	\$11.2	\$6.8	\$4.4	64.7
Year-to-date	\$19.7	\$15.7	\$4.0	25.5

Net finance expense for the second quarter of 2013 was \$11.2 million up \$4.4 million over the same period in 2012. Year-to-date net finance expense increased to \$19.7 million from \$15.7 million in 2012. This is driven by increased borrowing to fund the construction program and decreases in the fair value of the sinking funds compared to the same period in 2012.

Liquidity and Capital Resources

Cash provided by operating activities

Millions of dollars	2013	2012	Change	%
Six months ended June 30,	\$108.9	\$104.0	\$4.9	4.7

Cash provided by operating activities for the six months ended June 30, 2013 increased \$4.9 million compared to the same period in 2012 primarily due to decreased working capital requirements, partially offset by decreased income from operations.

Cash used in investing activities

Millions of dollars	2013	2012	Change	%
Six months ended June 30,	\$128.3	\$115.1	\$13.2	11.5

Cash used in investing activities in the six months ended June 30, 2013 increased to \$128.3 million, up \$13.2 million from the same period in 2012. SaskTel's net spending on property, plant and equipment for the first six months of 2013 was \$110.2 million, up \$16.8 million from the same period in 2012 primarily due to increased spending on Fibre to the Premises as well as enhancements to the 4G and LTE wireless networks, partially offset by government funding in the amount of \$8.5 million related to the First Nations Service Improvement Project and Aboriginal Affairs and Northern Development funding for First Nations schools and health facilities. SaskTel's net spending on intangible assets was \$26.6 million, down \$2.6 million from the same period in 2012 primarily due to reduced spending on Customer Relationship Management software.

Capital expenditures for the balance of 2013 will focus on further investment in growth initiatives while sustaining current capital assets. A large portion of the growth expenditures will see capital investment to increase bandwidth to our customers. Capital investments will include investment in Fiber to the Premise, which will significantly increase access speeds, as well as, the continued enhancements to the 4G cellular network, continued cellular network upgrade to LTE technology, network growth and refurbishment, further investment in *maxTV* Interactive Services, and improved high speed internet quality.

Cash provided by financing activities

Millions of dollars	2013	2012	Change	%
Six months ended June 30,	\$31.6	\$11.9	\$19.7	165.5

Cash provided by financing activities in the six months ended June 30, 2013 increased to \$31.6 million, up \$19.7 million from the same period in 2012. This is primarily due to increased short term borrowings and reduced dividend payments, partially offset by reduced long term borrowing compared to 2012.

Liquidity and capital resource ratios

Debt ratio

	June 30,	December 31,
	2013	2012
Debt ratio	46.5%	43.5%

The debt ratio increased to 46.5%, up from 43.5% at December 31, 2012. The December 31, 2012 debt ratio has been restated for the impact of the adoption of IAS 19 as discussed in Note 2 of the financial statements. Previously it was reported as 42.0%.

The overall level of net debt increased \$66.3 million during the period due to increased short-term debt, partially offset by increased cash.

Retained earnings decreased by \$8.3 million to the end of the second quarter of 2013 after recording net income of \$28.2 million and dividends of \$36.5 million.

The debt ratio is calculated as net debt divided by end of period capitalization. Net debt is defined as total debt, including long-term debt, notes payable and the current portion of long-term debt, less sinking funds, and cash and short-term investments. Capitalization includes net debt, equity advances and retained earnings at the period end but excludes amounts included in accumulated other comprehensive loss.

2013 Outlook

The 2012 SaskTel Annual Report identified a consolidated net income target for 2013 of \$93.8 million. At this time, SaskTel is projecting a net income of \$78.6 million.

Risk Assessment

The 2012 Annual Report discusses the risks and uncertainties in SaskTel's business environment. They include developments in the technological, economic and regulatory environments, competitive activity and cost management initiatives. SaskTel's basic risk profile remains unchanged as at June 30, 2013. Management continues to monitor individual risks as they change and evolve and employs the industry accepted risk management processes of identification, mitigation, transfer, assumption and control of key risks.

Note 1 – Basis of preparation

The condensed consolidated interim financial statements as at and for the six months ended June 30, 2013 should be read in conjunction with the Saskatchewan Telecommunications Holding Corporation's (the Corporation) December 31, 2012 audited consolidated financial statements. The condensed consolidated interim financial statements of the Corporation have been prepared in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting as issued by the International Accounting Standards Board. These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements.

The condensed consolidated interim financial statements as at and for the six months ended June 30, 2013 were approved by the Board of Directors on August 15, 2013.

a) Basis of measurement

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for the following:

- · Fair value through profit and loss financial instruments are measured at fair value, and
- The employee benefit obligations are recognized as the fair value of the plan assets less the present value of the accrued benefit obligation.

b) Functional and presentation currency

These condensed consolidated interim financial statements are presented in Canadian dollars, which is the Corporation's functional currency.

c) Use of estimates and judgments

The preparation of the condensed consolidated interim financial statements in conformity with International Financial Reporting Standards (IFRS) requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the condensed consolidated interim financial statements includes the following:

- Classification of intangible assets indefinite life, and
- Accounting for government funding.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year includes the following:

- useful lives and depreciation rates for property plant and equipment,
- useful lives and amortization rates for intangible assets, and
- the measurement of employee benefit obligations.

Note 2 – Application of revised International Financial Reporting Standards

a. Amendments to IAS 19 Employee Benefits (IAS 19)

The amendments to IAS 19 require that all actuarial gains and losses be recognized immediately in other comprehensive income (OCI) and that the calculation of interest income or expense on the defined benefit obligation and assets be based on the net defined benefit obligation or asset and the discount rate that is used to measure the defined benefit obligation. The calculated amount is required to be disclosed as a net interest income or expense amount. Historically, the Corporation had calculated and separately disclosed; the interest expense on the defined benefit obligation based on the discount rate that is used to measure the defined benefit obligation, and interest income on the defined benefit assets based on the long term expected rate of return on plan assets. The Corporation has chosen to recognize the net interest expense or income as a component of net finance expense and has chosen to report OCI in accumulated other comprehensive income. The new standard also requires additional disclosures.

The Corporation has applied the provisions of IAS 19 retrospectively, in accordance with the transition provisions of the standard.

The impacts of the application of amendments to IAS 19 are as follows:

Impact on net	income	

·	Three months	Sixmonths	Year ended
	ended June 30,	ended June 30,	December 31,

Total effect on equity	\$328,857	\$ -	\$328,857

b. Other new standards

The following new standards, and amendments to standards, effective for annual periods beginning on or after January 1, 2013, have been applied in preparing these condensed consolidated interim financial statements:

- IFRS 10, Consolidated Financial Statements and IAS 27, Separate Financial Statements
- IFRS 11, Joint Arrangements
- IFRS 12, Disclosure of Interests in Other Entities
- IFRS 13, Fair Value Measurement
- Amendments to IAS 1, Presentation of Financial Statements
- Amendments to IAS 28, Investments in Associates and Joint Ventures
- Amendments to IAS 32, Offsetting Financial Assets and Financial Liabilities and IFRS 7, Disclosures

The adoption of these standards had no material impact on the condensed consolidated interim financial statements. The new disclosure requirements will be provided in the 2013 annual consolidated financial statements.

Note 3 – Summary of significant accounting policies

The condensed consolidated interim financial statements have been prepared in accordance with IFRS. The accounting policies used in the preparation of these condensed consolidated interim financial statements conform with those used in the Corporation's most recent annual consolidated financial statements except as stated in Note 2 – Application of revised International Financial Reporting Standards, and have been applied consistently to all periods presented in these condensed consolidated interim financial statements.

The accounting policies have been applied consistently by the Corporation and its subsidiaries.

New standards and interpretations not yet adopted

Certain new standards, interpretations and amendments to existing standards were issued by the International Accounting Standards Board or International Financial Reporting Interpretations Committee that are mandatory for annual accounting periods beginning after December 31, 2013. The Corporation has assessed that there will not be a significant impact of these pronouncements on its results and financial position.

These include:

• IFRS 9 Financial Instruments (IFRS 9 (2012)) amends IFRS 9 (2010) and IFRS 7 to defer the effective date of IFRS 9 and provide additional disclosures about initial adoption of IFRS 9. IFRS 9 (2012) is effective for annual periods beginning on or after January 1, 2015.

Interest capitalization rate	Ţ,.uu	Ψο,, ο.	4.78%	5.33

Note 6 - Employee benefit obligations

Other comprehensive income results from changes to actuarial assumptions related to the assets and liabilities of the Corporation's employee benefit plans, specifically the discount rate used to calculate the liabilities of the employee defined benefit plan and changes in the fair value of the employee benefit defined plan assets resulting from differences in the actual versus estimated return on these assets. The discount rates used are as follows:

	2013	2012
March 31	3.80%	4.20%
June 30	4.00	4.00
September 30	n/a	3.80
December 31	n/a	3.80

Note 6 – Employee benefit obligations, continued

In addition to the other comprehensive income impact detailed below, these assumption changes, combined with pension income, contributions and benefits paid for the period, have resulted in a net decrease in the employee benefit obligations for the period.

	Three months en	ded June 30,	Six months ended June 30

At June 30, 2013 the Corporation had intangible assets that were fully amortized and still in use with a cost of \$50.9 million (December 31, 2012 – \$44.5 million).

Note 9 - Deferred income - government funding

In conjunction with the Aboriginal Affairs and Northern Development (AAND) funding agreement, the Corporation has received additional funding of \$7.5 million during the period for internet service to selected First Nations schools and health facilities in Saskatchewan as well as \$1.0 million in conjunction with the First Nations Service Improvement Project (FNSIP).

The funding has initially been classified as deferred income to be recognized as related expenses are incurred or amortized as assets related to the program are put into service.

Note 10 - Fair value of financial instruments

Fair values are approximate amounts at which financial instruments could be exchanged between willing parties based on current markets for instruments with similar characteristics, such as risk, principal and remaining maturities. Fair values are estimates using present value and other valuation techniques which are significantly affected by the assumptions used concerning the amount and timing of estimated future cash flows and discount rates that reflect varying degrees of risk. Therefore, due to the use of judgment and future-oriented information, aggregate fair value amounts should not be interpreted as being realizable in an immediate settlement of the instruments.

As at		June 30	June 30, 2013		
		Carrying	Fair	Carrying	Fair
Thousands of dollars	Classification (a)	Amount	Value	Amount	Value
Financial assets Investments - sinking funds	FVTPL	\$86,574	\$86,574	\$86,695	\$86,695
Financial liabilities Long-term debt	OL	\$581,023	\$683,446	\$580,881	\$720,763
Classification details are: FVTPL - fair value through	profit or loss	OL - other liabilities			

Note 10 – Fair value of financial instruments, continued

Determination of fair value

For financial instruments listed below, fair value is best evidenced by an independent quoted market price for the same instrument in an active market. An active market is one where quoted prices are readily available, representing regularly occurring transactions. Accordingly, the determination of fair value requires judgment and is based on market information where available and appropriate. Fair value measurements are categorized into levels within a fair value hierarchy based on the nature of the inputs used in the valuation.

Level 1 – Where quoted prices are readily available from an active market.

Level 2 – Valuation model not using quoted prices, but still using predominantly observable market inputs, such as market interest rates.

Level 3 – Where valuation is based on unobservable inputs. There were no items measured at fair value using level 3 during 2012 or 2013.

There were no items transferred between levels in 2012 or 2013.

As at	June 30, 2013 December 31, 20			12		
Thousands of dollars	Level 1	Level 2	Total	Level 1	Level 2	Total
Sinking funds	\$ -	\$86,574	\$86,574	\$ -	\$86,695	\$86,695
Long-term debt	\$ -	\$683,446	\$683,446	\$ -	\$720,763	\$720,763

Note 11 - Commitments

At June 30, 2013, the Corporation has committed to spend \$108.7 million (December 31, 2012 - \$134.2 million) on property, plant, equipment and \$1.6 million (December 31, 2012 - \$1.3 million) on intangible assets and \$78.9 million (December 31, 2012 - \$116.7 million) related to future operations.

Note 13 - Capital management

The Corporation does not have share capital. However, the Corporation has received advances from CIC to form its equity capitalization. The advances are an equity investment in the Corporation by CIC.

Due to its ownership structure, the Corporation has no access to capital markets for internal equity. Equity advances in the Corporation are determined by the shareholder on an annual basis. Dividends to CIC are determined through the Saskatchewan Provincial budget process on an annual basis.

The Corporation closely monitors its debt level utilizing the debt ratio as a primary indicator of financial health. The debt ratio measures the amount of debt in a corporation's capital structure. The Corporation uses this measure in assessing the extent of financial leverage and in turn, its financial flexibility. Too high a ratio relative to target indicates an excessive debt burden that may impair the Corporation's ability to withstand downturns in revenues and still meet fixed payment obligations. The ratio is calculated as net debt divided by capitalization at the end of the year.

The Corporation reviews the debt ratio targets of all its subsidiaries on an annual basis to ensure consistency with industry standards. This review includes subsidiary corporations' plans for capital spending. The target debt ratios for subsidiaries are approved by the Board. The Corporation uses targeted debt ratios to compile a weighted average debt to equity ratio for the consolidated entity. The budgeted ratio for 2013 is 46.5% (48.1% adjusted for IAS 19 Employee benefits adoption).

The Corporation raises most of its capital requirements through internal operating activities and long-term debt through the Saskatchewan Ministry of Finance. This type of borrowing allows the Corporation to take advantage of the Province of Saskatchewan's strong credit rating and receive financing at attractive interest rates.

The Corporation made no changes to its approach to capital management during the period.

The Corporation is not subject to any externally imposed capital requirements.

Note 13 - Capital management, continued

The debt ratio is as follows:

As at	June 30,	December 31,	January 1,
	2013	2012	2012
Thousands of dollars		(Restated - Note 2)	(Restated - Note 2)
Total debt (a)	\$744,823	\$666,481	\$537,972
Less: Sinking funds	86,574	86,695	78,444
Cash and short-term investments	15,667	3,466	7,998
