

ITEM **Satellite Based Circuits**
1000.32

1. Service Description

This arrangement provides the necessary satellite ground station facilities as well as the satellite space segment bandwidth required to facilitate private or shared communication channels.

2. Conditions of Service

1. These arrangements are offered on a month to month basis.
2. These arrangements are only available where suitable facilities exist.
3. If suitable facilities are not available, the customer will be required to pay SaskTel's costs to provide such facilities.
4. Additional maintenance charges may apply for service in locations not served by scheduled transportation service.

5. Standard Arrangement:

- (a) These arrangements are typically offered only within a Base Rate Area.

ITEM 1000.32 Satellite Based Circuits – Continued**2. Conditions of Service – Continued****6. Customer Specific Arrangement:**

- (a) These arrangements are typically offered on a customer specific basis either inside or outside of a Base Rate Area.
- (b) At locations that are deemed to be customer specific installations, the customer will be responsible for any extraordinary capital, maintenance or operating costs incurred by SaskTel in the initial provisioning and ongoing operation of the customer's service.
- (c) Customers that have had circuits in place under the discontinued "Satellite Facilities" item may move those circuits to this item on completion of their contracts. In this case the service charge below will not apply.

3. Rates

The Customer shall pay to SaskTel the following rates and charges for Satellite Based Circuits.

Channel Bandwidth	Channel Type	Monthly Rental per Circuit Endpoint	Service Charge per Circuit Endpoint
Voice Grade	Shared	\$ 290.00	\$ 18,469.00
19.2 Kb/s	Dedicated	395.00	18,469.00
32 Kb/s	Dedicated	435.00	18,469.00
56 Kb/s	Dedicated	920.00	18,469.00
64 Kb/s	Dedicated	1,040.00	18,469.00
