

ITEM  
610.02**Test Facilities****1. Service Description**

1. Subject to the availability of facilities, SaskTel will provide IXCs with Interconnecting Circuits and CCS7 connections with appropriate Automatic number Identification or calling line identification, for the purpose of testing their respective networks, at the rates and charges for such connections specified in SaskTel's Tariffs.
2. Connections furnished to the IXCs pursuant to this Tariff item shall be restricted to testing functions for a limited period of time mutually agreed to by the IXC and SaskTel. The IXCs shall not use these connections to carry any of their administrative or commercial traffic.
