Visit [sasktel.com/coverage](http://sasktel.com/coverage) for more information

The coverage areas shown are approximate. SaskTel cannot guarantee that coverage will be exactly as shown since factors beyond our control also affect coverage. These include weather conditions, terrain, your distance from a cell tower, and whether the cell is being used indoors or outdoors. Saskatchewan 4G coverage is as of April 30, 2015. 4G LTE coverage effective date is April 30, 2015. Coverage areas outside of Saskatchewan are subject to change without notice. Long distance charges apply outside local calling areas. Rate vary depending on service plan. Mobile internet access speed provided by the network operator may vary due to the divide being used, network congestion, distance from the cell site, topography, environmental conditions and other factors. Speed on the Internet is beyond the wireless network operator's control and may vary with your configuration, Internet traffic, website server and management policies, and other factors. 4G and 4G LTE are not available in all areas.
