Net finance expense	7.6	6.4	1.2	18.8
Net income	\$21.8	\$23.0	\$(1.2)	(5.2)

^{1.} nmf - no meaningful figure

Net income for the three months ended June 30, 2022, was \$21.8 million, a decline of \$1.2 million (5.2%) from the same period in 2021/22.

Revenue for the three months ended June 30, 2022, was \$316.4 million, an increase of \$5.2 million (1.7%) from the same period in 2021/22 primarily due to growth in wireless network services and equipment supplemented by fixed broadband and data services. The increase was partially offset by reduced wireline communication services.

Expenses for the three months ended June 30, 2022, were \$288.8 million, an increase of \$6.7 million (2.4%) from the same period in 2021/22. This increase was primarily due to increased goods and services purchased in addition to depreciation and amortization.

Net finance expense for the three months ended June 30, 2022, was \$7.6 million, an increase of \$1.2 million (18.8%) over the same period in 2021/22. The increase was driven by higher outstanding debt.

Management's Discussion and Analysis

August 11, 2022

Forward-Looking Information

The following discussion focuses on the consolidated financial position and results of the operations of SaskTel for the first quarter of 2022/23. This discussion and analysis should be read in conjunction with SaskTel's audited financial statements for the fiscal year ended March 31, 2022. Some sections of this discussion include forwardlooking statements about SaskTel's corporate direction and financial objectives. A statement is forward-looking when it uses information known today to make an assertion about the future. Since these forward-looking statements reflect expectations and intentions at the time of writing, actual results could differ materially from those anticipated if known or unknown risks and uncertainties impact the business, or if estimates or assumptions turn out to be inaccurate. As a result, SaskTel cannot guarantee that any of the predictions forecasted by forward-looking

statements will occur. As well, forward-looking statements do not take into consideration the effect of transactions or non-recurring items announced or occurring subsequently. Therefore, SaskTel disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. For a full discussion of risk factors, please refer to Management's Discussion & Analysis in SaskTel's 2021/22 Annual Report.

These interim statements have been prepared in accordance with the International Financial Reporting Standard IAS 34 *Interim Financial Reporting*.

These interim statements have been approved by the SaskTel Board of Directors on August 11, 2022.

Results of Operations

Revenue

Millions of dollars	2022	2021	Change	% Change
Three months ended June 30,	\$316.4	\$311.2	\$5.2	1.7

Revenue for the first quarter of 2022/23 was \$316.4 million, a \$5.2 million (1.7%) increase from the same period in 2021/22. The increase was due to growth in wireless network services and equipment comprised of wholesale revenues due to increased network usage by customers of other carriers; greater customer roaming; a larger wireless retail subscriber base through customer acquisitions; and a higher mix of converged customers. The increase was supplemented by increased fixed broadband and data services driven by customer demand for higher bandwidth services, fibre conversion, and new construction. The increases were partially offset by lower wireline communication services comprised of the ongoing erosion of legacy voice revenues, reduced customer project work, and the conclusion of a pay-per-view licenses agreement.

Results of operations, continued

Expenses

Millions of dollars	2022	2021	Change	% Change
Three months ended June 30,	\$288.8	\$282.1	\$6.7	2.4

Expenses for the first quarter of 2022/23 were \$288.8 million, a \$6.7 million (2.4%) increase from the same period in 2021/22. Goods and services purchased, excluding direct expenses, increased \$5.7 million due to increased software and maintenance costs incurred to modernize internal and customer-facing systems, forward-looking adjustments to the allowance for expected credit losses (ECL), and increased spending on contracts and advertising. Depreciation and amortization increased \$1.5 million due to increased investment in our fixed and wireless broadband networks and accelerated depreciation on wireless network assets. Increases were partially offset by a net decrease in direct expenses as a result of fewer wireless device sales offset by an increased average device cost as a result of premium device sales.

Net finance expense

Millions of dollars	2022	2021	Change	% Change
Three months ended June 30,	\$7.6	\$6.4	\$1.2	18.8

Net finance expense for the first quarter of 2022/23 was \$7.6 million, a \$1.2 million (18.8%) increase from the same period in 2021/22. Finance income decreased \$1.0 million primarily due to decreased sinking fund earnings. Finance expenses increased \$0.2 million primarily due higher outstanding debt offset by increased interest capitalized.

Financial Condition

Changes in the Corporation's assets, liabilities, and equity from March 31, 2022 to June 30, 2022 are discussed below:

DCIOW.		
Millions of dollars	Increase (decrease)	Explanation
	(decircus)	<u>'</u>
Cash	\$(20.6)	See condensed consolidated statement of cash flows
		Timing of non-customer related receivables and
Trade and other receivables	(8.4)	reduced receivables from lower customer project work
		Delayed receipts of wireless equipment due to global
Inventories	(7.1)	supply chain constraints
		Recognition of contract invoices for software and
Prepaid expenses	(5.7)	maintenance
		Amortization of term contracts partially offset by new
Contract assets	(7.1)	contracts
Contract costs	(0.6)	No significant change
		Capital spending primarily on wireless and fibre projects
		partially offset by depreciation, retirements, and
Property, plant and equipment	19.9	disposals
		Depreciation, retirements and adjustments of leased

Cash Flows

Cash provided by operating activities

Millions of dollars	2022	2021	Change	% Change
Three months ended June 30,	\$80.2	\$101.1	\$(20.9)	(20.7)

Cash provided by operating activities for the three months ended June 30, 2022, was \$80.2 million, a decrease of \$20.9 million (20.7%) compared to the same period in 2021/22 primarily due to reduced working capital requirements.

Cash used in investing activities

Millions of dollars	2022	2021	Change	% Change
Three months ended June 30,	\$73.4	\$58.2	\$15.2	26.1

Cash used in investing activities for the three months ended June 30, 2022, was \$73.4 million, an increase of \$15.2 million (26.1%) from the same period in 2021/22 primarily due to ongoing investment in fixed and wireless networks to improve the coverage, capacity, reliability, and speed of our networks.

Cash used in financing activities

Millions of dollars	2022	2021	Change	% Change
Three months ended June 30,	\$28.7	\$52.2	\$(23.5)	(45.0)

Cash used in financing activities for the three months ended June 30, 2022, was \$28.7 million, a decrease of \$23.5 (45.0%) million primarily due to increased net borrowing to invest in our fixed and wireless networks.

Capital Resource Ratio

Debt ratio

	June 30,	March 31,	
	2022	2022	Change
Debt ratio	55.0%	54.6%	0.4

The debt ratio increased to 55.0%, an increase of 0.4 percentage points from March 31, 2022. The overall level of net debt increased \$25.5 million during the period due to increased net borrowing.

Equity decreased \$1.7 million in the first quarter of 2022/23 after recording net income of \$21.8 million, other comprehensive loss of \$4.9 million, and declaring dividends of \$18.6 million.

The debt ratio is calculated as net debt divided by end-of-period capitalization. Net debt is defined as total debt, including total long-term debt, notes payable, and bank indebtedness, excluding lease liabilities, less sinking funds, and cash. Capitalization includes net debt, equity advances, accumulated other comprehensive income and retained earnings at the period end.

Capital Expenditures

Millions of dollars	2022	2021	Change	% Change
Property, plant and equipment	\$71.1	\$54.7	\$16.4	30.0
Intangible assets	5.5	4.3	1.2	27.9
Three months ended June 30,	\$76.6	\$59.0	\$17.6	29.8

Total capital expenditures for the three months ended June 30, 2022, were \$76.6 million, an increase of \$17.6 million (29.8%) from the same period in 2021/22.

Spending on property, plant and equipment for the three months ended June 30, 2022, was \$71.1 million, an increase of \$16.4 million (30.0%) from the same period in 2021/22. The increase was largely due to 5G wireless network modernization, fibre network initiatives, and ongoing investment in our existing infrastructure. Spending on intangible assets was \$5.5 million, an increase of \$1.2 million (27.9%) from the same period in 2021/22 primarily due to investments in system modernization.

Capital expenditures in 2022/23 will focus on further investment in the core Saskatchewan network including 5G network modernization, FTTX, wireless network enhancements and basic network growth. This core network investment will ensure increased internet access speeds; enhanced maxTV service; increased wireless bandwidth, resulting in increased roaming capacity and data speeds; as well as continued network growth and refurbishment. Expenditures will also enhance customer interface and expand service offerings to improve our customer's experience today and create opportunities to provide additional enhancements and capabilities in the future.

2022/23 Outlook

The 2021/22 SaskTel Annual Report identified a consolidated net income target for the fiscal year ended March 31, 2023 of \$106.5 million. At this time, SaskTel believes it will meet this target.

Risk Assessment

The 2021/22 Annual Report discussed the key strategic and core business risks and uncertainties facing SaskTel that may inhibit SaskTel from achieving goals and targets outlined in its Strategic Plan including the following areas: customer experience, broadband, digital transformation, workforce, and financial sustainability. Core Business Risks are risks associated with the execution of SaskTel's business functions including the following areas: operational, financial, and compliance and legal.

A strong governance process for enterprise risk management is in place. This is an iterative process designed to identify, evaluate, mitigate and control, report, monitor, and assess key corporate risks. As of June 30, 2022, SaskTel's key risk profile remains unchanged.

Note 1 - General information

Saskatchewan Telecommunications Holding Corporation (the "Corporation") is a corporation located in Canada. The address of the Corporation's registered office is 2121 Saskatchewan Drive, Regina, SK, S4P 3Y2. The Corporation is a Saskatchewan Provincial Crown corporation operating under the authority of *The Saskatchewan Telecommunications Holding Corporation Act* and, as such, the Corporation and its wholly owned subsidiaries are not subject to Federal or Provincial income taxes in Canada.

By virtue of *The Crown Corporations Act, 1993*, the Corporation has been designated as a subsidiary of Crown Investments Corporation of Saskatchewan ("CIC"). Accordingly, the financial results of the Corporation are included in the consolidated financial statements of CIC, a Provincial Crown corporation.

One of the Corporation's subsidiaries, Saskatchewan Telecommunications is regulated by the Canadian Radio-television and Telecommunications Commission ("CRTC") under the *Telecommunications Act* (Canada).

The Corporation markets and supplies a range of wireless, voice, entertainment, internet, data, equipment, marketing, security, software products, and consulting services.

Effective April 1, 2022, one of the Corporation's subsidiaries, Directwest Corporation ("Directwest") entity was dissolved with its total net assets transferred to Saskatchewan Telecommunications at the dissolution date. Directwest continues to operate as a division within Saskatchewan Telecommunications.

Note 2 – Basis of presentation

The unaudited condensed consolidated interim financial statements (hereinafter referred to as the interim financial statements) as at and for the three months ended June 30, 2022 should be read in conjunction with the Corporation's March 31, 2022 audited consolidated financial statements. The interim financial statements of the Corporation have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting*. These interim financial statements do not include all of the information required for full annual financial statements.

The interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). The accounting policies and methods of computation used in the preparation of these interim financial statements conform with those used in the Corporation's most recent annual consolidated financial statements and have been applied consistently to all periods presented in these interim financial statements.

The interim financial statements as at and for the three-month period ended June 30, 2022 were approved by the Board of Directors on August 11, 2022.

Functional and presentation currency

These interim financial statements are presented in Canadian dollars, which is the Corporation's functional currency.

Basis of measurement

The interim financial statements have been prepared on the historical cost basis except for the following:

- Fair value through other comprehensive income financial instruments and fair value through profit and loss financial instruments are measured at fair value, and
- Employee benefit obligations are recognized as the fair value of the plan assets less the present value of the accrued benefit obligation.

Note 2 – Basis of presentation, continued

Use of estimates and judgments

The preparation of the interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. These estimates and assumptions are based on several factors, including historical experience, current events, and actions that the Corporation may undertake in the future, and other assumptions that the Corporation believes are reasonable under the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the interim financial statements includes the following:

- Revenue recognition,
- Use of the straight-line basis of depreciation and amortization,
- Classification of intangible assets indefinite life,
- Classification of financial instruments,
- · Accounting for government funding,
- · Lease liability and right-of-use asset recognition, and
- Accounting for provisions.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year includes the following:

- Revenue recognition,
- Useful lives and depreciation rates for property, plant and equipment and right-of-use assets,
- Useful lives and amortization rates for intangible assets, and
- The measurement of employee benefit obligations.

Comparative information

Certain elements of the prior period comparative information have been reclassified to conform with the financial statement presentation adopted for the current period.

Application of new International Financial Reporting Standards, and amendments to standards and interpretations

Certain new standards, interpretations and amendments to existing standards were issued by the IASB or International Financial Reporting Interpretations Committee (IFRIC) that are mandatory for annual accounting periods beginning after April 1, 2022 or later periods. There was no impact to the interim financial statements upon adoption of these new standards and amendments to the existing standards.

Note 8 – Long-term debt

On May 12, 2022, the Corporation issued \$50.0 million of long-term debt at a discount of \$10.8 million through the Saskatchewan Ministry of Finance. The debt issue has a coupon rate of 2.80%, an effective interest rate of 3.58%, and matures on December 2, 2052.

Note 9 - Employee benefit obligations

Other comprehensive income (loss) results, in part, from changes to actuarial assumptions related to the assets and liabilities of the Corporation's employee benefit plan, specifically the discount rate used to calculate the liabilities of the employee defined benefit plan and changes in the fair value of the employee benefit defined plan assets resulting from differences in the actual versus estimated return on these assets. The discount rates used are as follows:

	2022/2023	2021/2022
June 30	4.70%	3.10%
September 30	n/a	2.80%
December 31	n/a	3.00%
March 31	n/a	3.90%

In addition to the other comprehensive income (loss) impact detailed below, these assumption changes, combined with pension income and benefits paid for the period, have resulted in a net decrease in the employee benefit obligations for the period which has been partially offset by the impact of the asset ceiling limit.

	nths ended June 30,	
Thousands of dollars	2022	2021
Actuarial gain on accrued benefit obligation	\$65,024	\$ -
Return on plan assets excluding interest income	(74,319)	34,593
Effect of asset ceiling limit	8,441	(34,774)
Net actuarial losses on employee benefit obligations	\$(854)	\$(181)

Note 10 – Capital management

The Corporation does not have share capital. However, the Corporation has received advances from CIC to form its equity capitalization. The advances are an equity investment in the Corporation by CIC.

Due to its ownership structure, the Corporation has no access to capital markets for internal equity. Equity advances in the Corporation are determined by the shareholder on an annual basis. Dividends to CIC are determined through the Saskatchewan Provincial budget process on an annual basis.

The Corporation closely monitors its debt level utilizing the debt ratio as a primary indicator of financial health. The debt ratio measures the amount of debt in a corporation's capital structure. The Corporation uses this measure in assessing the extent of financial leverage and in turn, its financial flexibility. Too high a ratio relative to target indicates an excessive debt burden that may impair the Corporation's ability to withstand downturns in revenue and still meet fixed payment obligations. The ratio is calculated as net debt divided by capitalization at the end of the period.

The Corporation reviews the debt ratio targets of all its subsidiaries on an annual basis to ensure consistency with industry standards. This review includes subsidiary corporations' plans for capital expenditures. The target debt ratios for subsidiaries are approved by their Boards. The Corporation uses targeted debt ratios to compile a weighted average debt to equity ratio for the consolidated entity. The budgeted ratio for 2022/23 is 54.3%.

The Corporation raises most of its capital requirements through internal operating activities, short-term debt, and long-term debt through the Saskatchewan Ministry of Finance. This type of borrowing allows the Corporation to take advantage of the Province of Saskatchewan's strong credit rating and receive financing at attractive interest rates.

The Corporation made no changes to its approach to capital management during the period.

The Corporation is not subject to any externally imposed capital requirements.

The debt ratio is as follows:

As at	June 30,	March 31,
Thousands of dollars	2022	2022
Long-term debt	\$1,386,270	\$1,347,583
Notes payable	173,989	202,468
Bank indebtedness	1,233	-
Less: Sinking funds	102,016	95,447
Cash		20,628
Net debt (a)	1,459,476	1,433,976
Province of Saskatchewan's equity (b)	1,192,072	1,193,724
Capitalization	\$2,651,548	\$2,627,700
Debt ratio	55.0%	54.6%

a) Net debt excludes lease liabilities

b) Equity includes equity advances, accumulated other comprehensive income, and retained earnings at the end of the period.

Note 12 – Financial risk management

The Corporation is exposed to fluctuations in foreign exchange rates and interest rates, as well as credit and liquidity risk. The Corporation utilizes a number of financial instruments to manage these exposures. The Corporation mitigates the risk associated with these financial instruments through Board-approved policies, limits on use and amount of exposure, internal monitoring, and compliance reporting to senior management and the Board. At June 30, 2022, the Corporation had foreign currency derivatives outstanding with notional values of \$33.8 million (2021/2022 - \$37.8 million) and maturities up to April 30, 2023. The Corporation does not actively trade financial instruments.

Note 12 - Financial risk management, continued

Market risks

Market risk represents the potential for loss from changes in the value of financial instruments. Value can be affected by changes in interest rates, foreign exchange rates, and equity prices. These risks have not changed significantly from the prior period.

Fair value

Fair values are approximate amounts at which financial instruments could be exchanged between willing parties based on current markets for instruments with similar characteristics, such as risk, principal, and remaining maturities. Fair values are estimates using present value and other valuation techniques which are significantly affected by the assumptions used concerning the amount and timing of estimated future cash flows and discount rates that reflect varying degrees of risk. Therefore, due to the use of judgment and future-oriented information, aggregate fair value amounts should not be interpreted as being realizable in an immediate settlement of the instruments.

As at			June 30, 2022		March 3	1, 2022
Thousands of dollars	Classification (a)	Fair value	Carrying amount	Fair value	Carrying amount	Fair value

Foreign exchange derivative liability	FVTPL	Level 2	-	-	499	499

⁽a) Classification details are:

FVOCI – fair value through other comprehensive income, FVTPL – fair value through profit or loss

Fair value hierarchy

When the carrying amount of a financial instrument is the most reasonable approximation of fair value, reference to market quotations and estimation techniques is not required. The carrying values of cash, trade and other receivables, trade and other payables and notes payable approximate their fair values due to the short-term maturity of these financial instruments.

For financial instruments, fair value is best evidenced by an independent quoted market price for the same instrument in an active market. An active market is one where quoted prices are readily available, representing regularly occurring transactions. Accordingly, the determination of fair value requires judgment and is based on market information where available and appropriate. Fair value measurements are categorized into levels within a fair value hierarchy based on the nature of the inputs used in the valuation.

- Level 1 Where quoted prices are readily available from an active market.
- Level 2 Valuation model not using quoted prices, but still using predominantly observable market inputs, such as market interest rates.
- Level 3 Where valuation is based on unobservable inputs.

There were no items measured at fair value using Level 3 inputs during 2021/2022 or to date in 2022/23 and no items transferred between levels in 2021/22 or to date in 2022/23.

Note 12 - Financial risk management, continued

Investments carried at fair value through OCI

Investments carried at fair value through OCI are categorized as Level 2 in the hierarchy consist of sinking funds. The fair value of sinking funds is determined by the Saskatchewan Ministry of Finance using information provided by investment dealers. To the extent possible, valuations reflect secondary pricing for these securities.

Long-term debt

The fair value of long-term debt is determined by the present value of future cash flows, discounted at the market rate of interest for the equivalent Province of Saskatchewan debt instruments.

Derivative financial instruments carried at fair value through profit or loss

The fair value of derivative financial instruments that are used to manage foreign currency exposure risks are estimated based upon quoted market prices in active markets for the same or similar financial instruments or current rates offered to the Corporation for financial instruments of similar maturity, as well as discounted future cash flows determined using current rates for similar financial instruments of similar maturities subject to similar risks (such fair value estimates being largely based on the Canadian dollar versus U.S. dollar forward exchange rate as at the statement of financial position dates).

Credit risk

Credit risk is the risk that one party to a transaction will fail to discharge an obligation and cause the other party to incur a financial loss. Concentration of credit risk relates to groups of customers or counterparties that have similar economic or industry characteristics that cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. The Corporation does not have material concentrations of credit risk. Current credit risk relates to trade and other receivables, device financing receivables, unbilled revenue, contract assets, sinking funds, interest receivable and counterparties to financial derivatives. The maximum exposure to credit risk is represented by the carrying amounts reported in the statement of financial position. There is minimal credit risk related to non-customer related financial instruments and derivative instruments at June 30, 2022 due to the investment-grade assets held within the sinking funds and investment-grade counterparties to derivative instruments.

Credit risk related to customer related financial instruments is primarily reflected in the allowance for doubtful accounts.
